

Faculty of Science Benha University

Conference of Applied Science & Climate Change Challenges (BFSCCCAS)

At Benha University ,El-Obour Campus ,Egypt

8-9 October 2022

<https://fsci.bu.edu.eg/>

Under the Auspices

Major General /Abdul Hamid Al-Hajjan

Governor of Qalubia

Prof.Gamal Sosa

President of benha university

Prof.Nasser El-Gizawy
**Vice President for Postgraduates
and Research**

Prof.Tamer Samir
**Vice President for Education
and Student Affair**

Prof.Mahmoud Eraqy
**Supervisor of the Environmental Affair
and Community Service Sector**

Confrance Chairman
Prof.Lotfy Abo Salem
Faculty Dean

Vice Chariman
Prof.Nehad El-Barky
**Vice Dean for Environmental Affairs and
Community Service**

Confrance Rapporteur
Prof.Ali Abdul Maboud
**Vice Dean for Postgraduates
and Researches**

Prof.Mohamed Heikal
Vice Dean for Student Affairs

Vision

In light of climate changes and keeping pace with scientific and technological development in the field of applied sciences and its use towards sustainable development, the faculty of science at Benha university is hosting its third conference to discuss the latest research in various scientific fields to proactively confront climate changes and to achieve sustainable development.

This conference represents an opportunity for scientists and researchers in various fields to meet, present their findings ,exchange opinions ,experiences and discuss relevant research issues.

Goals

- 1 Highlighting the role of scientific researche in confronting climate change
- 2 Using the outcoms of applied scientific re-searches in the field of climate change to achieve the sustainable development goals
- 3 knowledge sharing of the latest research ,networking and collaborating with with participants from the scientific community
- 4 Strengthening the scientific partnership between the Faculty of Science at Benha University and industrial institutions
- 5 Enhancing the role of the faculty and university in community service

Main themes

- 1 Applied sciences , climate change and sustainable development
- 2 Waste recycling & environmental protection
- 3 Managing natural resources
- 4 Renewable and green energy
- 5 Nanotechnology and the environment
- 6 Biodiversity and environmental protection

- 7 The impact of climate change on agriculture and food security

Keynote Speakers

- Prof. Mustafa Al Sheikh
Former Vice President of Tanta University for PostGraduates
- Prof. Walid Tawfik
Head of the Laser Department Applications at the Institute of Laser Sciences - Cairo University
- Prof. Mohamed El-Desouky
Former Dean of Faculty of Science, Suez Canal University
- Prof. Mohamed Mokhtar
Dean of Institute of Basic Sciences at Japanese University
- Prof. Karim Suliman
Prof. of Environmental Science ,Faculty of science ,Ain-Shams University
- Prof. Ayman Mahrous
Japanese University Space Science Center
- Prof.Mohamed El-Hadidy
Head of bioinformatics researche group at CIS, Nile university

Deadlines for Submission

- Abstract : 31 July
- Full paper: 20 september via the following e-mail : aml.metwaly@fsc.bu.edu.eg

Registration Fees

Benha Univ. members ; PG students :1000 L.E
Others : 1500 L.E
Non Egyptian : 400 dollars
Attendees only : 750 L.E

Confrance Website :

fsci.bu.edu.eg/conferences/sciconf2

Online registration:
